

Supplementary Table 8. CTGDL-FHRMA domain-shift and phenotype-assignment assessment

Frontiers in Signal Processing R1 supplementary table

07 July 2026

Supplementary Table 8. CTGDL-FHRMA domain-shift and phenotype-assignment assessment

Standalone display version for LaTeX upload/review. Machine-readable source: `source_tables/Supplementary_Table_8_external_representation_validation.csv`. Rows: 12; columns: 5. The source table is split below into source-defined sections and column blocks so that all non-empty cells remain readable.

table block: external embedding metrics

Table 1: Supplementary Table 8, external embedding metrics

metric	value
ctu records	552
ctgdl fhrma records	135
domain classifier AUROC ctgdl vs ctu	0.9088
PCA explained variance pc1 pc2	0.5092
ctgdl assigned SSL phenotype 1	56
ctgdl assigned SSL phenotype 2	1
ctgdl assigned SSL phenotype 3	62
ctgdl assigned SSL phenotype 4	16

table block: assigned SSL phenotype counts

Table 2: Supplementary Table 8, assigned SSL phenotype counts

assigned ctu SSL phenotype	n records
1	56
2	1
3	62
4	16
